# Better Benefits...

ClearBenefits.ca is a Specialty Group Benefits Provider  
Exclusive pooled programs for groups of 3—20+

- **Essentials Program** - Most Affordable
- **Lifestyle Program** - Enhanced Coverage

## Better Approach...

Our pooled programs balance premium coverage with stable rates, effectively eliminating the volatility common to most benefits plans for groups of 3 - 20+.

We use a “true insurance” approach towards benefits with a spread of risk across many clients, effectively transferring risk to the pool, delivering what clients expect a benefits plan should be.

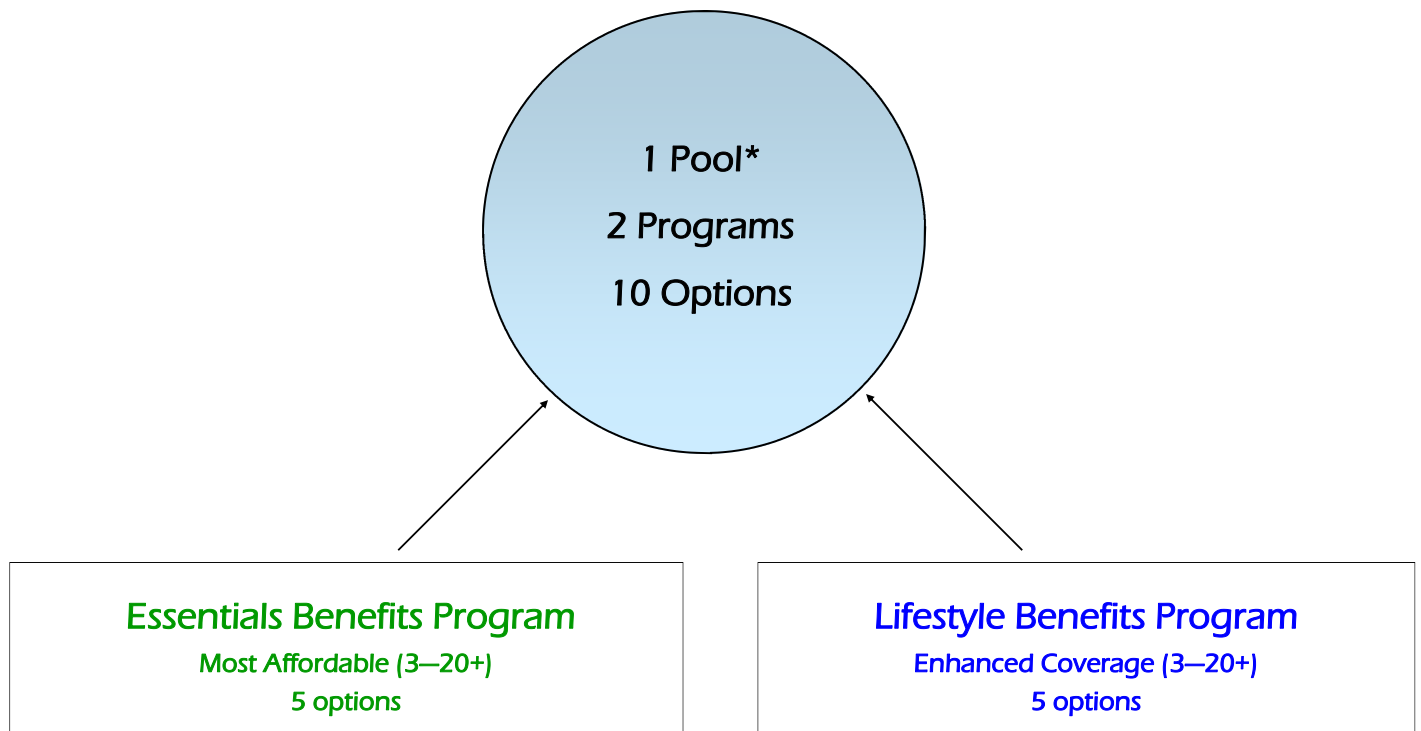

## Better Solutions...

### Pooled Programs:

- Pay Direct Drug & Dental Card
- claimsXchange® provider portal allows providers to electronically submit claims on behalf of their patients

# Clear Stability

## Our Pooled Approach

In order to create stability for all participants of our programs, our pooled approach blends the factors that normally create rate volatility for traditional group plans:

- Initial pricing
- Claims
- Average age
- # of staff
- Gender mix
- Inflation trend

While the factors affecting the rates for individual groups can vary significantly from year to year, our pooled programs have a proven history of delivering rate stability for all clients making our plans easier to budget for.

### Combined average annual rate adjustment:

- **7.23%** - 12 year average to June 2019

# a few questions...

- **Will my employees want a plan?**

Overwhelmingly, YES. Almost all employees value a benefits plan far in excess of a cash raise.

- **Will my employees value the plan we choose?**

Employees always seem to appreciate a benefits plan that provides good value. They could now have affordable access to a wider variety of quality healthcare than they may normally afford for themselves and their families (i.e. dental, prescriptions, vision, chiropractor etc.)

A healthier workforce means fewer sick days and less disruption for your business.

- **Is the plan affordable?**

Employers are always pleased with how affordable our plans are.

ClearBenefits.ca programs provide premium coverage with an option for almost any budget.

- **Should we share the cost of the plan with our employees?**

Most employers share the cost of a plan 50/50 with their employees.

Generally employees expect there will be a cost sharing of the plan.

- **Can the “couple” rate apply to a single parent with 1 eligible dependent?**

Yes. It can apply to a married couple, common-law spouses or a single parent with 1 eligible dependent.

- **Is there much on-going administration?**

Not really. Normal ongoing administrator functions are just regular maintenance; adding/deleting employee & dependent information and payroll deductions of the employee portion. Employees are responsible for reporting any changes to the plan administrator, and for privacy, employees submit claims directly to the insurer.

- **Will we have help with the initial set-up and on-going support?**

Yes! We utilize a structured approach from our initial contact to the ongoing service.

Our structured approach is designed to ensure your plan runs smoothly, is kept current, contains costs, and effectively eliminates common administrative issues that can arise.

- **How much will this cost?**

We find that if the employer's portion of the monthly premium is approx. 2.5—3.5% of payroll (based on a 50/50 cost sharing with the employees), both the employer and the employees are comfortable and feel they are getting good value. Depending on the option selected, this can be more affordable than a cash raise, with no additional EI, CPP or WCB contributions.

# starting a benefits plan...

## Which plan is right?

- Each client has unique circumstances and similar needs
- Clients typically ask for a plan that is affordable with quality coverage and stable rates
- We recommend selecting a plan you are comfortable with, you can always upgrade later

## Pricing?

- Coverage levels directly affect rates
- Higher levels of coverage have higher premiums
- Decreasing levels of coverage have proportionately lower premiums
- Looking to contain costs? The only sustainable solution is to select a different coverage level
